PROJECTS (MORE ON GITHUB)

- **KeyForecast**   https://github.com/dshah1010/key-forecast.git
  Python, Django, HTML, CSS, JSON, Git
  - Developed a **web application** with a **Django backend** to channel **GET/POST requests** to the **OpenWeatherMap API** (parsed by **JSON**) and receive forecast details for any city location at the instant moment

- **Listify**   https://github.com/dshah1010/listify.git
  HTML, CSS, JavaScript, JSON, Git
  - Created a **chrome extension** to write tasks that uses **JavaScript** and **JSON** to mark tasks as complete or be deleted and saves processes in **local storage**

- **Intake Tracker**   https://github.com/dshah1010/intake-tracker.git
  HTML, Bootstrap, JavaScript, JSON, Git
  - Developed a **CRUD web application** which saves recipes (including ingredients, calories, carbohydrates, protein, fat, and other notes) and uses **Bootstrap** for the **frontend** design and **JavaScript** and **JSON** to save and delete recipes, and save processes in **local storage**

- **Audio Analyzer**   https://github.com/dshah1010/audio-analyzer.git
  Python, Flask, HTML, CSS, Git
  - Developed a **web application** that receives **.wav** audio files and transcribes them using a **Flask backend** to channel **GET/POST requests**
